Jerry,

Wanted to let you know that I checked my own info in the database I use which is called, intelius.com.

There was a fair amount of bad info in it, specifically emails and cell #s but the correct info was there too. All that to say, my guess it it will take a fair amount of work to confirm info for missing classmates or those whose info is incomplete.

I have a list of classmates for whom I was unable to find anything but about half of them I put on it before I discovered all the middle names for everyone on the commencement program. I'll work that list tomorrow and send success to you but will then send the truly missing to the people that Ann suggested.

PLEASE let me know how else I can help. I had a good time searching.

Jeff
